Midea

E ZONE

Midea zoning control solution is designed to keep your ducted system in the zone - Easy & Efficient.

User-friendly Design

- 7 inches large screen
- Notification & error code display
- 0.5°C Precise temperature control on temperature dial
- Customizable mode setting

Smart Control

- Compatible with Alexa & Google assistant
- APP control

Well Serviceability

- Access to all function of Midea ducted system
- Connect up to 16 zones
- Wired & wireless control

Simply ideal

WHY YOU NEED A ZONING CONTROL.

Saves Money by zoning out unused rooms

A family home is filled with various activity spaces that aren't constantly occupied. Without zoning, you may end up cooling unused areas—unnecessarily driving up your energy costs. With zoning, you can eliminate wasteful energy spending and precisely control the temperature only where it's needed.

Customised comfort with individual control

A zoning system lets you customize the temperature room by room — ideal for households with different comfort preferences, so everyone enjoys their ideal cooling or heating.

Better HVAC lifespan

When you cool or heat only the occupied spaces, your HVAC system doesn't have to work as hard as cooling or heating the whole house. This reduces wear and tear, extends the system's lifespan, and lowers maintenance needs.

THE ADVANTAGES OF MIDEA ZONING CONTROL.

Offer preferred a climate individually

Midea Zoning Controller is designed for homes with multiple rooms requiring air conditioning. It enables you to select specific zones for heating or cooling, and customize airflow and temperature settings for each vent.

Serve with more practical functions

Midea's zoning controller offers exclusive access to advanced features built into Midea ducted systems—such as trouble reminders, energy-saving mode, automatic self-cleaning, and OTA updates—which are not available with third-party zoning controllers.

On/Off switch

This system effortlessly maintains your desired temperature by cycling the unit on and off as needed. It's designed for efficiency and is ideal for smaller living spaces, such as apartments and cozy homes..

Third-party zoning control

This accessory has limited compatibility with your Midea ducted system due to differences in communication protocol specifications.

MASTER CONTROLLER

Control multiple zones and access to all features that Midea ducted system comes with.

USER-FRIENDLY DESIGN IN A GLANCE.

7" Touchscreen
Designed for more user-friendly interaction & decreasing misoperation.

Intuitive Interface
Information management interface is simple, intuitive, and easy to use.

Smart detection
Contactless position transmitters detect when a person is moving towards the controller and automatically turns on.

Precise Comfort Control
Set temperature in 0.5°C increments or decreases, allowing you to choose the temperature that suits you best.

Over-The-Air Updates
Software updates happen securely and effortlessly via Wi-Fi. So you can always have the latest software version.

Temperature and Humidity Sensor
Displays precise indoor room temperature and humidity levels.

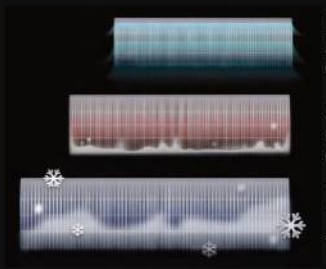

Twin master controller available
Suitable for big house and commercial need that required up to 16 zoning control.

Temperature dial
Simply place your finger on the toggle of the dial and slide left or right to increase or decrease the temperature.

Integrated Zoning
Control all of your zones within one device and each zone can easily be updated with a custom name that suits you best.

ACCESS TO MORE PRACTICAL FEATURES:

SELF CLEANING

High-temperature defrosting
Automatic high-temperature melting of frost, eliminating dirt and dust

Air supplying cooling
Exhausts moisture and dirt to restore optimal refrigeration performance

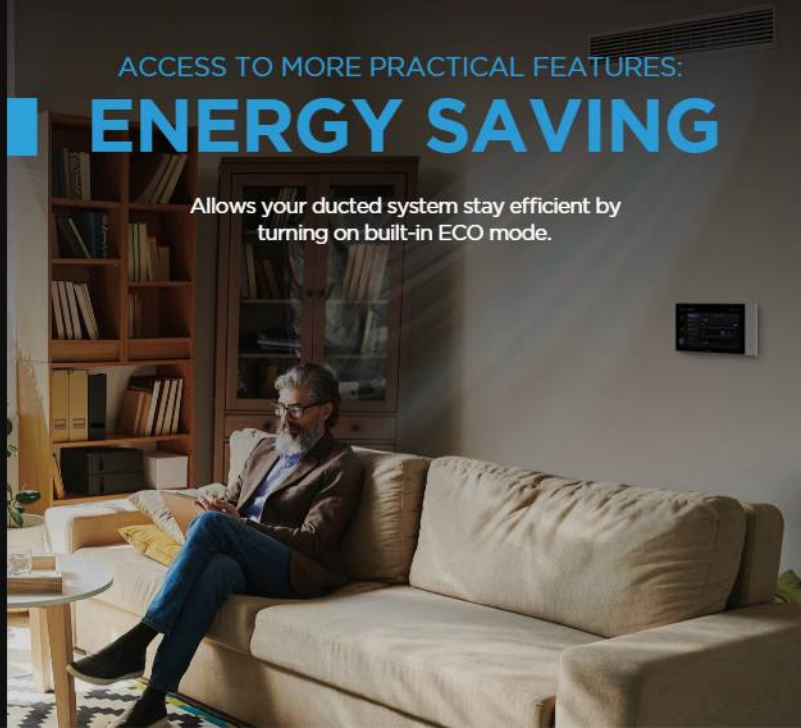

Frosting
Adsorb dirt by frosting heat sink

ACCESS TO MORE PRACTICAL FEATURES:

ENERGY SAVING

Allows your ducted system stay efficient by turning on built-in ECO mode.

ZONE CONTROL BOX

Engineered for effortless installation and hassle-free maintenance of the Midea ducted system.

EASY-TO-SERVICE DESIGN IN A GLANCE.

Serviceability

The Midea Zoning Control System features our proprietary intelligent zoning algorithm, which automatically adjusts air volume to meet the unique demand of each room. By calculating the optimal airflow output, it ensures efficient performance while maintaining comfort. When demand is low, the system intelligently reduces fan speed to save energy and minimize operating costs. It also enhances user comfort by preventing noise issues associated with excessive airflow.

Compatibility

Able to run up to 16 air valves by expanding capacity via additionally connect with another zone control box.

Connection

Built-in 915MHz wireless communication enable communicate with indoor unit with four-core RS485 / two-core Homebus.

ZONE CONTROLLER

Multiple controller options to cater to your needs, or to match your interior design.

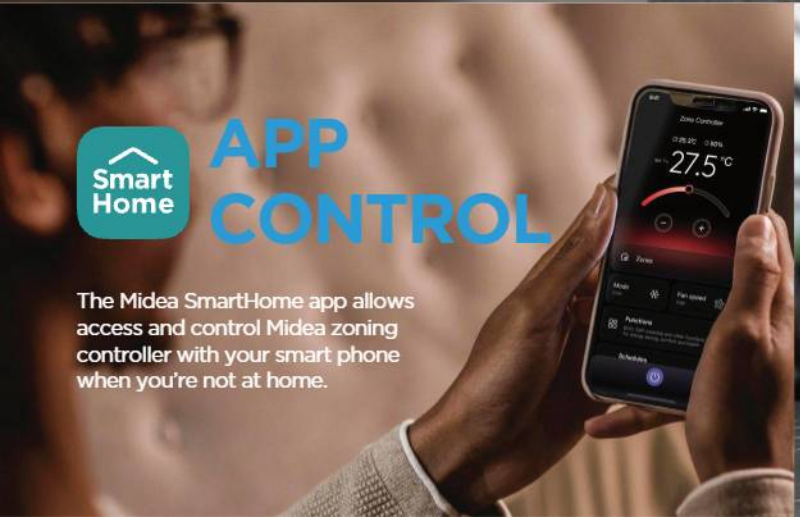

Lower your electricity costs by turning off the A /C in unoccupied rooms.

Smart Home

APP CONTROL

The Midea SmartHome app allows access and control Midea zoning controller with your smart phone when you're not at home.

VOICE CONTROL

Midea zoning controller enable connectivity with Alexa and Google Home - so you can easily control your ducted system with the simple sound of your voice.

Functions	Description	 Master Controller	 App (Midea SmartHome)	 Zone Controller (on/off type)
Temperature Adjustment Range	17°C-30°C			
Damper Adjustment Range	0%-100%			
Available Mode	Cooling / Heating / Fan / Dehumidifying / Auto			
ON/OFF	Turn ON/OFF all the dampers of ducted system			
Fan Speed				
Group Control	Allows individual control and group control for 2-16 dampers			
Child Lock	Turn ON/OFF by 4-digit password on master controller			
Information Display	Indoor humidity / indoor temperature /weather (7-days weather forecast)			
Time Display				
Notification Display	Weekly timer for broadcasting / red dot reminder (reminder for error, OTA, self-cleaning completing, etc.) / error reminder (error code and description)			
Functions Activation	Energy saving / UV lamp / self cleaning / electric auxiliary heating / 8 degrees heating
